

# CLA-VAL CLOG-136-01

Communicating On/Off Solenoid Control Valve  
CV-Log+ Communicating Logger

## Simple, Reliable and Accurate

- Completely Automatic Operation
- Easy Adjustment and Maintenance
- Quality Approved Materials
- World Wide Support Link2Valves Platform

Communicating logger  
CV-Log+

### CLA-VAL SERIES CLOG Main Function

The CLA-VAL SERIES CLOG switches a latching solenoid by means of a CLA-VAL CV-Log+ communicating logger according to predefined rules, or upon remote command, via the CLA-VAL Link2Valves web platform.

### CLA-VAL CLOG-136-01 Typical Application

The CLA-VAL CLOG-136-01 is designed to fully open or fully close the valve according to flow, time and/or pressure conditions, or upon remote command.

The CLA-VAL CLOG-136-01 is typically designed for industrial uses like control of process water for batching, mixing, washing, or other on/off applications such as flushing valves.

The CLA-VAL CV-Log+ communicating logger, combined with the CLA-VAL Link2Valves platform allows remote valve diagnostic and control.

### Make your valve even Better!

- |              |  |
|--------------|--|
| LFS Option?  | <u>Control</u> Low flows or night flows            |
| KO Option?   | <u>Extend</u> valve life with Anti-Cavitation trim |
| KG1 Option?  | <u>Use</u> stem cleaning for harsh water           |
| Maintenance? | <u>Check</u> on periodic maintenance               |
| Environment? | <u>Adapt</u> to high temperatures or frost risk    |
| Security?    | <u>Add</u> hydraulic safety back-up to your valve  |
| Protection?  | <u>Remove</u> excessive system overpressures       |
| Corrosion?   | <u>Protect</u> your valve with upgraded materials  |
